About Company

PENGTECH SOLUTIONS is an established company having been registered on the 6th of May 2020 in Kenya under the Companies Act with a team of able full time employees with the knowledge of the business of ICT, Repairs and general supplies.

We are located in a prime area within Nairobi CBD and have adequate workers to ensure delivery of products is done on time and in good condition.

We have perfected the disciplines of sale and supplies of ICT products and services, Microsoft Licensing, Repairs, office consumables and general supplies.

We value our customers need and recommend the best course of action which builds a lasting relationship.

Over the years, one thing has remained the same:

Our commitment to customer service. To us, that means listening to your ideas and responding to your needs promptly.

Management Message

Peter Ngunjiri

Ceo Company

Our ability to accomplish duties assigned to us is mainly based on our professional employees who have vast experience and are conversant with the products. We are a relationship-oriented company where customers are given top priority.

Since its incorporation, the management of PengTech Solutions has understood that operating a successful business requires the delicate balancing of diverse needs and objectives.

To ensure that diversity would always be considered, early on PengTech Solutions adopted three corporate goals, which are still very much a part of its business philosophy.

- To improve the quality of life in communities where we operate.
- To provide the company with opportunities for fulfillment.
- To produce financial results that will reward those who work and invest with us.

In addition, the company believes that these goals cannot and should not be replaced in any priority order.

Each is indispensable to achieve success.
